## Uvod

### Korisceni programski jezici

Koriscene su sledece tehnologije:

- Laravel
- MySQL
- HTML 5
- CSS 3
- Bootstrap
- JavaScript,
- jQuery
- AJAX
- Php Storm

## Opis funkcionalnosti

Na pocetnoj stranici su dinamicki izlistane iz baze: meni, kategorije objava, i najnovije 3 objave (ostale se mogu dobiti klikom na dugme *Older posts*, koje se zatim putem AJAX-a dostavljaju i ispisuju krajnjem korisniku)

U zavisnosti od odabira kategorije postova - prikazuju se njih 6 dinamicki dohvadena iz baze, zatim ukoliko korisnik odluci da prikaze jos ili da ih filtrira unoseći sadrzaj u polje *search...*, dobice zeljeni prikaz na istom mestu doveden kroz AJAX. Ukoliko ga nema - ispisace se da pokusa ponovo!

Registraciju i logovanje moze da obavi, kako bi dobio pristup opciji za komentarisanje objava. Ukoliko pogresno ili ne unese uopste nikakav parametar, korisniku ce se ispisati prikadna greska ispod samog polja. Nakon uspesne registracije mu stize obavestenje za uspesan unos, kao i za logovanje sem sto ga posalje na pocetnu stranicu.

Opciju za kontaktiranje admina moze svaki (i autorizovani i neautorizovani ) korisnik da uradi, cime ce se poslati ista ta poruka adminu na mejl (jedino, naravno, ako samo lepo popuni polja).

Na admin panelu prikazuje se sledece:

aktivnosti - u posebnoj stranici i na samom pocetku, ali samo poslednje izvucene iz sesije (kreirane u trenutku kad su se te aktivnosti i desile), jos kraj toga, (tacnije iznad), стоји opcija za filtriranje po datumu ( na toj posebnoj stranici, videcete)

upravljanje sadrzajem : postova i galerija slika, obe su ispisane kroz tabelu, zajedno sa opcijom filtriranja kroz checkboxove kako bi se prikazali iz zasebne kategorije (uz to, postovi imaju i opciju filtriranja putem polja Search u gornjoj navigaciji ) -full CRUD za obe tabele

upravljanje korisnicima : korisnici i njihove uloge, obe takodje ispisane kroz tabelu, sa opcijama za unos/izmenu i brisanje

na samom dnu su ostale jos i :

kategorije - ispih istih, promena, unos i brisanje (uključujući i sliku na pocetnoj koja predstavlja njihov thumbnail)

meni - tacnije i podmeni, ispis, unos, izmena i brisanje

# Template

The screenshot displays the homepage of the "Chess2Chess" website. At the top is a dark navigation bar with links for HOME, CHESS ARTICLES, FUNNY CHESS, CHESS MEMES, ABOUT, and CONTACT. Below the navigation is a large header image featuring two chess knights facing each other, with the word "quizzes" overlaid on the black knight and "memes" on the white knight. To the right of this image is a collage of chess pieces with labels: "interviews", "funny", "tactics", and "memes". The main content area contains three article cards:

- Chess tactics 2 | Definitions** (2021-03-13) - A card with a circular chess piece image, a detailed description of Exchange Sacrifice, and a "Read more" button.
- Chess in popular culture** (2014-04-16) - A card with a circular image from "The Simpsons" showing Homer Simpson playing chess, a brief description, and a "Read more" button.
- Weird Chess Openings** (2012-01-13) - A card with a circular image of a person holding a checkered flag, a brief description, and a "Read more" button.

At the bottom of the page is a footer section with the site name "Chess2Chess", a "Categories" section listing Quizzes, Interviews, Tactics, Funny, and Memes, and a "Pages" section listing About, Contact, and Author.

Svojerucno ispisano

(dobro, koristio se i bootstrap :)

dakle - latest 3 posts (older-AJAX,zatim i newest) + meni + kategorije

prikaz 6 objava iz kategorije (pise u podnaslovu), filtriranje kroz search(AJAX) + uskladjena paginacija (isto AJAX).

#### Who is behind all of this?

Well hello! Didn't see you there...Wanna know something about me, huh? Why? Are you working for the police? If not, nice to meet you, my name is Dijana, I'm 21 years old and I live in a house in Belgrade.

After successfully finishing both kindergarten and elementary school, I decided to continue my education at the Philological High School because I really liked learning about languages. I was so good that I managed to master six of them ( English, French, Latin, Serbian, Bosnian and Montenegrin), but I realized I needed a new challenge...I always wanted to talk to the machines and the best way to do that is by learning computer languages. I will be able to speak to my laptop, right?

ukoliko korisnik pokusa kroz URL adresu da pristupi bilo kojoj admin putanji, bice prosledjen na ovu, adekvatnu stranicu sa opcijom vracanja na pocetnu.

### About

#### What is chess2chess?

It is a chess blog about everything related to chess.

#### What can I do around here?

First of all, you can read a lot. We write chess articles about everything that comes to our mind. We cover chess events. We write book and equipment reviews. We conduct chess interviews. We will also write about chess history. We write articles for beginners. We write random articles about things from the chess world we find funny.

Secondly, you can also do some training here. We post chess tactics regularly. Check our list of chess tactics for an easier set of problems, or check our list of chess tactics if you want to shock your brain with difficulty and beauty. If you are up for a real challenge, you may also try solving some quizzes.

#### Oh dear, it is difficult to navigate this site. What is a good place to start?

To see our recent articles, just check our home page. Thanks!
